Vhai rohan many many thanks to you for uploading novels for the browsers of this site. You are no doubt doing a great a job for all of us. Since I came overseas (in 2000) it was impossible for me to read novels if I wouldn't have browsed a site like bdbangla through the only effort of you.

I can realise everybody is busy in overseas. Vhaia if you can make some time only then please keep on uploading new novels. No one should force you to do this and they don't have the right to do that. They can simply request you but can't force you at all. However may be my post is becoming lengthy. I am stopping here. Hope to write more in this post in future.

Lastly vhai rohan can you please print here once again the new website address for e-books which you wrote couple of months back while bdbangla was shifting their all stuffs to the bigger server?

Thanks.
